SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
PURSUANT TO 37 C.F.R. § 1.97

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated July 22, 2005, Applicant hereby supplements the Information Disclosure Statement filed on July 22, 2003 by enclosing Form PTO/SB/08B, containing references which may be deemed relevant to the above-identified patent application, along with a copy of each of the documents cited therein. The Examiner is respectfully requested to consider these references and indicate his or her consideration thereof by initialing the enclosed Form PTO/SB/08B and returning a copy of the initialed form to Applicant's undersigned attorney.

In the Office Action dated July 22, 2005 in the above-identified patent application, the Examiner stated that the Information Disclosure Statement submitted by

the Applicant on July 22, 2003 was in compliance with the provisions of 37 C.F.R. § 1.97, except for the two submissions listed as Cite No. 28 and Cite No. 30: a document entitled "Mission Area: Structural Blast Mitigation" ("the Mission Area Document"), and a reference entitled "Prestressed Concrete: A Fundamental Approach," by Edward Nawy ("the Nawy Reference"), respectively. This Supplemental Information Disclosure Statement addresses those two previous submissions singled out by the Examiner as being defective.

More specifically, the Examiner stated in the July 22, 2005 Office Action that she has not considered the Mission Area Document since no date of publication has been listed on the Information Disclosure Statement and the Examiners are not supposed to consider submissions that do not list a date.

The Applicant respectfully responds to the Examiner's objection by reiterating the explanation already contained in the July 22, 2003 Information Disclosure Statement. It is respectfully submitted that the Applicant authored the Mission Area Document prior to the date of invention of the subject matter disclosed in the present application and submitted this document to a governmental entity. However, the Applicant does not know whether this document was ever published by such governmental entity as set forth under 35 U.S.C. §§ 102/103.

In this connection, it is noted that the same document was submitted by the Applicant to the U.S. Patent Office as one of the references cited in the Information Disclosure Statement for U.S. Patent Application Serial No. 10/076,971 ("the '971 Application"). The '971 Application was published by the U.S. Patent Office as U.S.

Patent Application Publication No. US 2003/0145534 A1 on August 7, 2003, after the filing date of the present application. Accordingly, the Mission Area Document would have been available to the public through the U.S. Patent Office as of this publication date of the '971 Application. The Applicant is not aware of any earlier date this document would have been made available to public.

Thus, it is unknown to the Applicant as to whether the Mission Area Document is indeed a prior art publication. The Applicant nevertheless discloses this document to comply with its duty of disclosure in the event that such article is indeed found to be a prior art publication. It is respectfully requested that the Examiner consider the Mission Area Document. A copy of the Mission Area Document is being submitted herewith.

The Examiner also stated in the July 22, 2005 Office Action that the Nawy Reference was not considered since a copy of the reference did not accompany the filing of the Information Disclosure Statement. The Applicant apologizes for this inadvertent oversight and hereby respectfully submits a copy of the relevant portions of the Nawy Reference for the Examiner's consideration.

As provided for by 37 C.F.R. 1.97(g) and (h), no representation is being made that a search has been conducted or that this statement encompasses all the possible relevant information, and no inference should be made that the information and references cited are, or are considered to be, material to patentability because they are in this statement. No inference should be made that the information and references cited are prior art merely because they are in the statement.

A check in the amount of \$180.00 is included herewith to cover the fee for the submission of this Information Disclosure Statement, which is being submitted prior to the mailing date of a Notice of Allowance or a final Office Action in the above-referenced application. No additional fees are believed to be due. However, authorization is given hereby to charge any deficiency or credit any overpayment to Deposit Account No. 01-1785.

Respectfully submitted,

AMSTER, ROTHSTEIN & EBENSTEIN LLP
